Seasonal Travel Guide

Antarctica guards its secrets in an icy grip for all but five magical months. Here are some seasonal highlights to help you plan which voyage to choose:

SPRING/EARLY SUMMER

October – December

On the Antarctic Peninsula, Spring is a favorite time for many, especially photographers, who delight in pristine snowscapes. Flightsee[^] above magnificent Lemaire Channel and the rarely seen sea floor in our custom-built submarine[^].

By November in Antarctica, watch penguins begin courting, nest-building thievery and egg incubation. Mid-to-late December, chicks hatch to be fed by parents sharing fishing and feeding duties. Minkes, humpbacks and Southern Right whales arrive to feed beneath near 24-hours of daylight.

On South Georgia, male fur and elephant seals battle to create and protect their harems. King penguins balance eggs on their feet and albatross reveal their gawky, gorgeous chicks.

SUMMER

January – Early February

Peak season on the Antarctic Peninsula sees rookeries full of chicks and sunlight is at its peak. Parents dodge leopard seals and skuas scan for the unattended. Crabeater and Weddell seals lounge on ice floes, females often nursing newborn pups. Ice retreats to allow

easier access to the Antarctic Circle and the Weddell Sea and opens up new vistas to enjoy from our two custom built helicopters[^]. As summer winds down, adolescent chicks fledge and are curious, often approaching visitors before running the leopard seal gauntlet on their first swims.

On South Georgia, penguin chicks almost as big as their parents need constant feeding and are old enough to play with juvenile seals. Long days continue and temperatures rise above 5°C, the warmest of the year.

Almost entirely covered in thick, permanent ice, East Antarctica and the Ross Sea region are only accessible from late December into January, which means three exclusive departures each season.

AUTUMN

Late February – Early March

As autumn reaches Antarctica, cormorant chicks bravely begin to fly and whales group up for their migration north to breeding grounds. Brilliant sunsets herald nightfall, patches of sea freeze, courting leopard seals captivate with eerie songs and the last gentoo penguins are chased into the Southern Ocean by winter's ever-increasing ice barrier. South Georgia is alive with millions of fur seal pups cavorting in swim schools, king penguins pack beaches while newly discovered Type D orcas and elusive Sperm whales pass nearby.

[^]Flights on board our two helicopters and submarine are at additional cost, subject to regulatory approval, availability, weight restrictions, medical approval and weather and ice conditions. Helicopters are unable to operate in South Georgia.

North Island

At the northernmost tip of New Zealand, see where the Pacific Ocean meets the Tasman Sea. Sail through the beautiful Bay of Islands, the cosmopolitan port town of Tauranga in the Bay of Plenty region, and experience the captivating charm of Napier.

South Island

The South Island's long coastline offers an extraordinary variety of sheltered bays, pristine lakes, and turquoise glacial rivers. Fiordland National Park's landscape is lined with waterfalls cascading hundreds of feet and rainforests that cling to mountains.

The Kimberley

Verdant oases, thundering waterfalls, sky-high gorges, and ancient Indigenous rock art. Where the desert meets the sea, enjoy the captivating coastal scenery from rugged cliffs to serene bays. Paprika-colored cliffs seem surreal against the iridescent azure sea.

Western Australia

Watch as the landscape evolves from the turquoise waters and red rust dirt in the north to expansive stretches of snow-white sand and some of the tallest forests in the world in the south.

Top Highlights of Australia & New Zealand

Small ship cruising

Custom designed for unrivaled access to Kimberley waterways and the New Zealand coast, Scenic Eclipse II ventures beyond the horizon for an intimate sailing experience in 6-star ultra-luxury. Enjoy active exploration

Soar above the changing landscape to remote waterfalls with a scenic flight in one of the two on board helicopters[^]. Dive below the surface with Scenic Neptune II[^]. Swim and snorkel in tranquil reefs above colorful coral and schools of tropical fish. Experience an exhilarating Zodiac cruise down hard-to-reach waterways. With kayaks provided, serenely glide along a fjord or in a bay. Join the expert Discovery Team on an amble along bush tracks spotting wildflowers and native birds or a rocky hike to discover ancient finds in a cave. The level of exertion is always your choice, as the Discovery Team will tailor unforgettable experiences to suit your interests and pace.

Unique wildlife

Endemic to Australia and New Zealand is an animal kingdom unlike anywhere else. The flightless kiwi, alpine parrots, penguins, and fur seals can be found in the 'land of the great white cloud.' In Australia, spot rock wallabies, quolls, kangaroos, emus, and lizards on land and crocodiles on banks. In the ocean, find sea turtles, dolphins, and hundreds of species of fish and in the sky, see soaring eagles, albatross, and many different bird species.

[^]Flights on board our two helicopters, helicopter experiences and submarine at additional cost, subject to regulatory approval, availability, weight restrictions, medical approval and weather and tidal conditions. Submarine unable to operate in the Kimberley region.

The Kimberley

Where the ocean meets the outback, the Kimberley is world-renowned for its rugged beauty, natural wonders and sacred rock art. Each journey offers an abundance of Scenic Discovery activities that will unlock the exceptional natural wonders of this unique region. Experience the famous phenomenon of the Horizontal Falls — and take to the sky for unrivaled views on board a Scenic Eclipse helicopter[^]. Witness the marvel of Montgomery Reef, which appears to rise from the sea when the tide drops rapidly. Each day is an opportunity for once-in-a-lifetime experiences.

Australia's East Coast

Stretching across two states from New South Wales to Queensland, Australia's East Coast is home to two World Heritage-listed sites: Fraser Island (K'gari), the largest sand island in the world, and the Great Barrier Reef, the most extensive living structure on Earth. The expert Discovery Team will reveal the true glory of the iconic reef's complex ecosystem. Comprising of 3,000 coral reefs, 600 islands, 300 coral cays and 2,000 species of fish, whales and dolphins, it's an astonishing place that should be explored

with the region's top specialists and marine biologists. Discover the Whitsundays, a jaw-dropping archipelago of 74 islands. Spend a decadent afternoon on Whitehaven, which is sure to become your new favorite beach. Lounge around on Lizard Island's pure white sands, where giant clam gardens are within snorkeling distance of the shore. When you think you've seen it all, we'll take you to idyllic places that others haven't even heard of.

Fiords of New Zealand

Scenic Eclipse has been custom designed for unrivaled access to smaller waterways that larger cruise ships can't reach, including World Heritage-listed site Fiordland National Park. Including Dusky, Doubtful and Milford Sounds, experience the majestic scenery, seamlessly sailing past mountainous postcard views and waterfalls as

high as 3,000 feet that only multiply in their magnificence as it rains. The onboard Swarovski Telescopes in the Observation Lounge and binoculars in each suite are there to help you get a closer look at New Zealand's incredible flora and fauna.

Ancient cultures

In Australia, gain insights into traditional life from native food to rock art, storytelling, and bush remedies, along with sacred smoking ceremonies. Hear stories of how knowledge is passed onto each generation of the world's oldest living culture. In New Zealand, experience the power and hospitality of the Māori culture which has become part of the country's allure.

THE PACIFIC ISLANDS

Spanning a quarter of the globe, the Pacific Islands are home to around 40,000 islands and some of the most isolated communities in the world. Discover this region's natural beauty and cultural diversity in 6-star ultra-luxury as the Discovery Team guides you through remarkable experiences. Kayak and stand-up paddleboard over crystal clear waters, get a bird's-eye view on our on board helicopter^ and see what lies below the surface on a snorkeling excursion or in our custom-built submarine^.

Isle of Pines, New Caledonia
S 22° 36' E 167° 28'

Indonesian Archipelago

Spanning across the equator, the Indonesian archipelago has around 17,000 islands in the Pacific and Indian Oceans, including the Spice Islands, Bali and Komodo Island, where your Discovery Team can introduce you to the world's largest lizard.

Raja Ampat

A pristine island paradise in the West Papua Province, Raja Ampat is where some of the world's most diverse coral reef and fish life, including around 75% of the world's species, can be found between stunning rock islets and thick jungles.

New Caledonia

In the middle of the Pacific, this French territory is a memorable mix of French and Melanesian cultures. It is where you can swim, snorkel and possibly even dive below the horizon by submarine* in World Heritage-listed lagoons and coral reefs.

Solomon Islands

They may have around 1,000 islands, but with most of the population living on just six of them, the Solomon Islands are one of the wildest destinations in the Pacific. Expect idyllic beaches, wild jungles and blue lagoons with significant pieces of World War II history.

*Flights on board our two helicopters and submarine are at additional cost, subject to regulatory approval, availability, weight restrictions, medical approval and weather and ice conditions.

Top Highlights of The Pacific Islands

Small-ship cruising

The delight of sailing the Pacific Islands on Scenic Eclipse, The World's First Discovery Yachts™, goes beyond the refined elegance of the ship. With only up to 228 guests, you will spend more time on shore, enjoy more intimate experiences and more opportunities for helicopter^ and submarine^ excursions. Take advantage of the all-inclusive experiences like kayaking, stand-up paddleboarding, snorkeling and Zodiac excursions before returning to your ultra-luxury suite to relax by the vitality pools, rejuvenate at the spa or indulge at your choice of dining venue or bar.

Pristine environments

The Pacific is home to atolls and rainforests that have remained mostly untouched by human life and include a number of World Heritage-listed sites and biosphere reserves. As you sail through fragile ecosystems rest assured that Scenic Eclipse's GPS Dynamic Positioning will enable her to maintain location without dropping anchors onto sensitive coral reefs and seabeds, while the Azipod propulsion systems deliver the lowest noise and vibration levels possible to ensure minimal disturbance to the marine and wildlife that you'll be seeing first hand.

Wildlife

The Pacific Islands archipelago is home to the largest and most diverse population of seabirds in the world, including the vulnerable fairy tern and masked, red-footed and brown boobies, while the abundance of marine life includes whales, dugongs, sharks and sea turtles. Our Discovery Team experts lead lectures and education programs about the wildlife you'll encounter on your journey, and the Swarovski telescopes in the Observation Lounge and on the Observation Deck allow for closer inspections when you spot something special.

Historical significance

The history of the Pacific Islands dates back to before written records began with ancient carvings and rock paintings providing some clues. Everywhere we visit has a story, including the Spice Islands, which were once known as the world's largest source of nutmeg, cloves and pepper, and the Solomon Islands, where some submerged World War II ship and plane wrecks can be seen by snorkelers. Gain a deeper appreciation for the history of the islands during in-depth lectures in our state-of-the-art theater.

^Flights on board our two helicopters and submarine are at additional cost, subject to regulatory approval, availability, weight restrictions, medical approval and weather conditions.

Soak up the sun & sea

Soft sandy beaches, sparkling lagoons and colorful coral reefs abound in the Pacific. Kayak or stand-up paddleboard along the pristine waters, get a glimpse into the world below with a snorkel, or simply lie down under a palm tree and breathe it all in. Your 6-star sun and sea time continues on board when you slip into one of your Discovery Yacht's Vitality pools and lie back in a

cabana, the perfect place to enjoy your favorite afternoon drink. You can even feel the sun on your face and breathe in the salt air on your suite's verandah as your butler delivers your latest choice from the 24-hour in suite dining menu.
